Mechanical Stimulation* Pain Relief Neuromodulation Without E-Stim

VibraCool® Pro is the only wearable neuromodulation device using MECHANICAL stim therapy. Multimodal thermal and high frequency M-Stim® combine to treat restricted muscles and optimize gate control pain relief. Don't zap your patients! VibraCool gives **POWER OVER PAIN**.

- Relieves pain on contact
- Clinical research: 3.4x better than E-Stim
- Simple, portable modality
- Clinician and patient satisfaction 100% guaranteed

Safe with Pacemakers

Tested, Proven Effective

"VibraCool is the most cost-effective therapy; even our hard-to-treat patients found it comfortable, easy to use and had benefit."

Tiziano Marovino, DPT, MPH, DAAIPM
Executive Editorial Advisor, Practical Pain Management
Editorial Advisor Board, Spine Universe

Use For

- Stim Modality
- Restricted Muscles
- Post-surgical/Overuse
